

POST-2015 TB STRATEGY AT A GLANCE

<u>VISION:</u>	A world free of TB: Zero deaths, disease and suffering due to TB
<u>GOAL:</u>	End the Global TB Epidemic
<u>TARGETS FOR 2035:</u>	95% reduction in TB deaths (compared with 2015) Less than 10 cases per 100,000 population
<u>MILESTONES FOR 2025:</u>	75% reduction in TB deaths (compared with 2015); TB cases reduced to less than 50 per 100,000 population No affected families face catastrophic costs due to TB

PRINCIPLES:

- Government stewardship and accountability, with monitoring and evaluation
- Strong coalition with civil society and communities
- Protection and promotion of human rights, ethics and equity
- Adaptation of the strategy and targets at country level, with global collaboration

PILLARS AND COMPONENTS

1. HIGH-QUALITY, INTEGRATED TB CARE AND PREVENTION

- A.** Early diagnosis of TB including universal drug susceptibility testing; systematic screening of contacts and high-risk groups
- B.** Treatment of all people with TB including drug-resistant TB, with patient-centred support
- C.** Collaborative TB/HIV activities and management of co-morbidities
- D.** Preventive treatment of people at high-risk and vaccination for TB

2. BOLD POLICIES AND SUPPORTIVE SYSTEMS

- A.** Political commitment with adequate resources for TB care and prevention
- B.** Engagement of communities, civil society organizations, and public and private care providers
- C.** Universal Health Coverage and other policy and regulatory frameworks for case notification, vital registration, drug quality and rational use, and infection control
- D.** Social protection, poverty alleviation and actions on other TB determinants

3. INTENSIFIED RESEARCH AND INNOVATION

- A.** Discovery, development and rapid uptake of new tools, interventions, and strategies
- B.** Research to optimize implementation and impact and promote innovations
